

ETHICS CONDUCT AND PROFESSIONAL STANDARDS IN INVESTMENT MIGRATION

Module Overview

The IM industry is one that has grown rapidly in recent years. Many countries have focused on the benefits of economic migration and introduced citizenship and residence by investment programmes. In ensuring that the IM programmes are run in a legal, transparent and ethical way all shareholders must commit and adhere to the highest possible standards in conducting their affairs, whether it is agents, programme staff, politicians or others working in or allied to the industry.
