INVESTMENT MIGRATION FORUM 2026

About the Forum

Welcome to Paris – a city that has given the world ideas, revolutions, and the vocabulary of modern citizenship. It is a privilege to gather here to reflect on the future of global mobility, responsible investment, and the movement of people in an era defined by uncertainty and opportunity. This year's Forum is framed around three words at the heart of the French Republic: Liberté, Égalité, Fraternité. We adopt this motto not as a slogan, but as a respectful framework and an invitation to ground our discussions in principles that transcend borders and politics, helping guide how investment migration evolves, competes, collaborates, and connects nations.

About the IMC

The Investment Migration Council (IMC) is the worldwide forum for investment migration, bringing together the leading stakeholders in the field.

The IMC sets global standards, provides qualifications, and publishes in-demand research in the field of investment migration aimed at governments, policymakers, international organisations, and the public.

It is an impact-focused Swiss-based (non-profit) membership organisation in special consultative status with the Economic and Social Council of the United Nations since 2019 and registered with the European Commission Joint Transparency Register Secretariat (ID: 337639131420-09).
